### **Following are the notes made of the different ideas, solutions, and opinions expressed.**

Courts in SoCal have tried designating courts for play according to rating. This has caused bad blood in every case. A court host has proven to be effective – someone charged with being present during club hours to facilitate play.

Beginner court is a must but if not used can be utilized by other ratings. Designate 1 court as a public court – they must observe the rotation like anyone else but they don't have to be members of the club

Designate 6 courts with 4 on 4 off rotation  
Designate 6 courts with 2 on 2 off rotation  
Designate all courts with 2 on 2 off rotation  
Designate all courts with 4 on 4 off rotation

Designate 6 courts as 'competitive' and 6 courts as 'recreational'

Make sure that at least 1 of 6 courts is a challenge court  
Do away with challenge courts

Designate 1 day per week as beginners day. Designate 1 day a week for players without partners.

Have 1 white board for every 6 court configuration

Singles play – designate a court – designate day(s). Singles play – let them sign up on the whiteboard with an (s) by their two names and they play 1 game and rotate off.

Donation box for visitors and members.
